AUTHOR INDEX TO VOLUME 16, 1941.

Author	*Subject*	*Page*
ABE, Ryonosuke:	See KIMOTO, Toraki	1, 33
	MORIKAWA, Kiyoshi	229, 324
AONO, Takeo:	Studies on Reactions between Gas and Solid. VII. Nitrogenation of Calcium Carbide and Its Kinetic Discussion	91
———:	Studies on Reactions between Gas and Solid. VIII. The Mechanism of Nitrogenation of Calcium Carbide	106
GOTO, Kakuji:	Abbau von Dibenzoyl-sinomenolchinon zu 2,3,3',4'-Tetramethoxy-diphenyl	170
———:	Synthese von rac. 3,6-Dimethoxy-5-äthoxy-*N*-äthyl-nor-aporphin	329
GOTO, Kokiti:	Untersuchungen der chemischen Eigenschaften der Kohlenhydrate mit Hilfe des schweren Sauerstoffs. I. Austauschreaktion der Sauerstoffatome zwischen einigen Hexosen und Wasser (Auszug)	172
———:	Untersuchungen der chemischen Eigenschaften der Kohlenhydrate mit Hilfe des schweren Sauerstoffs. II. Austauschreaktion und Mutarotation der Glucose und Fructose (Auszug.)	403
HAMAI, Senzo:	Physico-Chemical Investigations on Catalytic Mechanism. II. Note on The Fischer-Tropsch Synthesis of Hydrocarbons with Special Reference to its Reaction Mechanism	213
HARADA, Taichi:	A Note to the Paper "On the Metallo-organic Compounds. X. Electroisomerism in the Triethyltin Group"	292
HIGASI, Keniti:	Lösungsmitteleffekt des Dipolmomentes disubstituierter Benzole	472
HIROTA, Kozo:	Thermal Diffusion of Binary Salt Solutions. A Note on the Paper of Gillespie and Breck	232
———:	Researches on the Chemical Reaction by Use of the Thermal Diffusion Apparatus of Clusius and Dickel. I. Thermal Polymerisation of Methane.	274
———:	Studies on the Thermal Diffusion of Solutions. I. Thermal Diffusion Coefficient of Some Inorganic Solutions	475
INABA, Reikichi:	See GOTO, Kakuji	329
ISHIMURA, Koshiro:	On the Catalytic Action of Japanese Acid Earth. XI. The Isomerisation of Aldehydes to Ketones and the Explanation of the Migration of the Radicals from the Standpoint of the Electronic Theory.	196
———:	On the Catalytic Action of Japanese Acid Earth. XI. The Isomerisation of Aldehydes to Ketones and the Explanation of the Migration of the Radicals from the Standpoint of the Electronic Theory (*Continued*)	252

Author	*Subject*	*Page*
ISHIMURA, Koshiro:	On the Catalytic Action of Japanese Acid Earth. XI. The Isomerisation of Aldehydes to Ketones and the Explanation of the Migration of the Radicals from the Standpoint of the Electronic Theory (*Continued and concluded*)	293
———:	On the Catalytic Action of Japanese Acid Earth. XII. The Relation between the Catalytic Activity and Adsorption. II. The Adsorption Isotherms of Water and Acetonitrile for the Earth	349
———:	On the Catalytic Action of Japanese Acid Earth. XII. The Relation between the Catalytic Activity and Adsorption. II. The Adsorption Isotherms of Water and Acetomitrile for the Earth	349
———:	On the Catalytic Action of Japanese Acid Earth. XIII. The Catalytic Action on Some Alkyl Aryl Acetaldehydes	397
———:	A Simple Procedure for Decolourisation of Organic Compounds	443
———:	Some Methods of Analysis of Commercial Methanol	444
ISOBE, Chiharu:	See NEGISHI, Ryoji	278
IWADARE, Koichi:	The Formation of Polyhydroxy-dialdehydes. I. Xylo-trihydroxy-glutaric Dialdehyde and its Derivatives	40
———:	The Formation of Polyhydroxy-dialdehydes. II. *d*-Lyxo-trihydroxy-glutaric Dialdehyde and its Derivatives	144
———:	Studies on Lignin. III. On the Lignin of *Paulownia imperialis*	150
KANEKO, Motomi:	See SUEDA, Hideo	138
KAWAMURA, Fumikazu:	Studies on Styrene Ozonide	382
KIMOTO, Toraki:	Direct Determination of Oxygen in the Organic Compounds by the Hydrogenation. IV. Analyses of the Sulphur-Containing Compounds, Coals.....	324
	See MORIKAWA, Kiyoshi 1, 33,	229
KIMURA, Osamu:	Influence of Sorption on the Electric Conductivity of Pulverised Metals. I.	378
KOIZUMI, Masao:	See OKAZAKI, Nobukazu	371
KURODA, Jisaku:	Austauschreaktion der Wasserstoffatome im festen Anilinchlorhydrat und seinen Derivaten. II. *p*-Toluidinchlorhydrat (Auszug)	417
KURODA, Kazuo:	The Copper Content of the Hot Springs of Yunohanazawa, Hakone, Kanagawa Prefecture, and that of the Hot Springs of Osoreyama, Aomori Prefecture	69
———:	Analyse des Mineralwassers von Kinkei in der Provinz Totigi	234
KUWADA, Satoru:	Über die Reaktion von Grignardschen Reagenz auf α-Benzoyloxy-butyronitril	423
MATSUMURA, Toshiyoshi:	See YAMASHITA, Masataro	413
MÔRI, Koziro:	See SATA, Naoyasu	139

Author	*Subject*	*Page*
MORIKAWA, Kiyoshi:	Direct Determination of Oxygen in the Organic Compounds by the Hydrogenation. I. Search of the Optimum Analytical Conditions	1
———:	Direct Determination of Oxygen in the Organic Compounds by the Hydrogenation. II. Cracking Mechanism on the Pt-Silica Gel Catalyst	33
———:	Direct Determination of Oxygen in the Organic Compounds by the Hydrogenation. III. Reduction Mechanism on the Ni-Thoria Catalyst	229
	See KIMOTO, Toraki	324
MORITA, Noriyoshi:	See NAKATA, Sigeo	463
NAKAMURA, Yozo:	Asymmretrische Synthese. III. Versuch zur Darstellung eines optisch-activen Amins durch die Reduktion des Ketoximes beim Vorhandensein von optisch-aktiver Säure	367
NAKATA, Sigeo:	Katalytische Oxydation des Schwefeldioxyds mittels schweren Sauerstoffs an der Oberfläche des Platin-Schwamms (Auszug)	463
NEGISHI, Ryoji:	The Separation of Iso- and Normal Butyl Alcohols from Hydrocarbons by Azeotropic Distillation	278
NISIZAWA, Kazutosi:	Synthese einiger Glykoside	155
NITTA, Takesi:	See URUSHIBARA, Yoshiyuki	179
OGURA, Toyoziro:	Studien über Oxydationszersetzung des Methans	262
———:	Studien über Oxydationszersetzung des Methans (*Fortsetzung*)	303
———:	Studien über Oxydationszersetzung des Methans (*Fortsetzung und Schluss*)	356
OKAZAKI, Nobukazu:	Austauschreaktion der Wasserstoffatome im festen Anilinchlorhydrat und seinen Derivaten. I. Anilinchlorhydrat (Auszug.)	371
	See KURODA, Jisaku	417
OYAMADA, Taichiro:	Studies on the Derivatives of 3-Hydroxyflavanone (Dihydroflavanol). I. On the Action of Lead Tetraacetate on Flavanone and 4'-Methoxyflavanone	408
SATA, Naoyasu:	Über die unregelmässige Reihe der kolloiden Lösungen durch Elektrolyten. III-Mitteilung: Untersuchung an HgS-Solen aus verschiedenen Ausgangsmaterialien	139
SASAGAWA, Yoshio:	See KUWADA, Satoru	423
SIMAMURA, Osamu:	The Synthesis of 1,4-Diphenyl-1.4-di-*p*-tolylbutatriene and 1.4-Diphenyl-1,4-di-*p*-chlorophenylbutatriene	210
SIMOKORIYAMA, Masami:	Über die Bildung der partiellen Acetate von Flavonen, Flavanonen, Anthrachinonen und dergleichen Verbindungen	284
SHISHIDO, Hideo:	See GOTO, Kakuji	170, 329
SUEDA, Hideo:	A Rapid Determination of Potassium with Hexanitrodiphenylamine (Dipicrylamine) Reagent	137

Author	*Subject*	*Page*
TANAKA, Yasuo:	Studies on the Reaction between Oxides in Solid State at Higher Temperatures. I. The Reaction between Magnesium Oxide and Titanium Oxide..	428
———:	Studies on the Reactions between Oxides in Solid State at Higher Temperatures. II. The Reaction between Calcium Oxide and Titanium Oxide and the Photo-sensitivity of Calcium Titanate	455
TATIMORI, Monzi:	Polymerisation of Tung Oil, IV. Effects of Various Natural Fatty Oils upon the Gelation of Tung Oil	16
———:	Polymerisation of Tung Oil. V. Effects of Treated Fatty Oils upon the Gelation of Tung Oil.	45
———:	Polymerisation of Tung Oil. VI. Effects of Fatty Acids, Fatty Alcohols, and Several Organic Substances upon the Gelation of Tung Oil	51
———:	Polymerisation of Tung Oil. VII. Effects of Various Inorganic Substances upon the Gelation of Tung Oil	75
———:	Polymerisation of Tung Oil. VIII. Effects of Various Bitumens and Resins upon the Gelation of Tung Oil	82
———:	Polymerisation of Tung Oil. IX. Comparison of Gelation Phenomena of Tung Oil and Oiticica Oil..	114
———:	Polymerisation of Tung Oil. X. Gelation of Tung Oil at High Temperature (Summarized Report)..	118
TATSUTA, Haruo:	Asymmetrische Synthese. II. Asymmetrische Synthese von Oxy-flavanon aus Oxy-chalkon	327

CONTENTS OF VOLUME 16, 1941.

No. 1. JANUARY.

Kiyoshi MORIKAWA, Toraki KIMOTO, and Ryonosuke ABE: Direct Determination of Oxygen in the Organic Compounds by the Hydrogenation. I. Search of the Optimum Analytical Conditions 1

Seishi YAMASHIRO: Studies on the Derivatives of Biphenylene Oxide. V. Bromo-derivatives of Biphenylene Oxide 6

Monzi TATIMORI: Polymerisation of Tung Oil, IV. Effects of Various Natural Fatty Oils upon the Gelation of Tung Oil . . 16

Yojiro TSUZUKI: The Nature of the Complex Formation between Boric Acid and Organic Polyoxy Compounds 23

No. 2. FEBRUARY.

Kiyoshi MORIKAWA, Toraki KIMOTO, and Ryonosuke ABE: Direct Determination of Oxygen in the Organic Compounds by the Hydrogenation. II. Cracking Mechanism on the Pt-silica Gel Catalyst 33

Koichi IWADARE: The Formation of Polyhydroxy-dialdehydes. I. Xylo-trihydroxy-glutaric Dialdehyde and its Derivatives 40

Monzi TATIMORI: Polymerisation of Tung Oil. V. Effects of Treated Fatty Oils upon the Gelation of Tung Oil 45

Monzi TATIMORI: Polymerisation of Tung Oil. VI. Effects of Fatty Acids, Fatty Alcohols, and Several Organic Substances upon the Gelation of Tung Oil 51

No. 3. MARCH.

Seishi YAMASHIRO: Studies on the Derivatives of Biphenylene Oxide. VI. 4-Nitrobiphenylene Oxide and its Derivatives . . 61

Kazuo KURODA: The Copper Content of the Hot Springs of Yunohanazawa, Hakone, Kanagawa Prefecture, and that of the Hot Springs of Osoreyama, Aomori Prefecture 69

Monzi TATIMORI: Polymerisation of Tung Oil. VII. Effects of Various Inorganic Substances upon the Gelation of Tung Oil . . 75

Monzi TATIMORI: Polymerisation of Tung Oil. VIII. Effects of Various Bitumens and Resins upon the Gelation of Tung Oil . 82

Takeo AONO: Studies on Reactions between Gas and Solid. VII. Nitrogenation of Calcium Carbide and Its Kinetic Discussion . . 91

809578

No. 4. APRIL.

Yasuo UEHARA: Studies on Luminescent Materials. III. On the Photoconductivity and the Molecular Vibration Structure of Fluorescence Spectra of the Zinc Sulphide Crystal Phosphors . 99

Takeo AONO: Studies on Reactions Between Gas and Solid. VIII. The Mechanism of Nitrogenation of Calcium Carbide 106

Monzi TATIMORI: Polymerisation of Tung Oil. IX. Comparison of Gelation Phenomena of Tung Oil and Oiticica Oil 114

Monzi TATIMORI: Polymerisation of Tung Oil. X. Gelation of Tung Oil at High Temperature (Summarized Report) 118

Tōhiti YOSIDA and **Toshizo TITANI**: Polymerisation von Styrol in schwerem Alkohol. (Ein Beitrag zum Mechanismus der Kettenpolymerisation von Styrol in Lösungen) 125

No. 5. MAY.

Hideo SUEDA and **Motomi KANEKO**: A Rapid Determination of Potassium with Hexanitrodiphenylamine (Dipicrylamine) Reagent 137

Naoyasu SATA und **Koziro MORI**: Über die unregelmässige Reihe der kolloiden Lösungen durch Elektrolyten. III-Mitteilung: Untersuchung an HgS-Solen aus verschiedenen Ausgangsmaterialien 139

Koichi IWADARE: The Formation of Polyhydroxy-dialdehydes. II. *d*-Lyxo-trihydroxy-glutaric Dialdehyde and its Derivatives . . . 144

Koichi IWADARE: Studies on Lignin. III. On the Lignin of *Paulownia imperialis* 150

No. 6. JUNE.

Kazutosi NISIZAWA: Synthese einiger Glykoside 155

Yojiro TSUZUKI: Glycerolysis of Starch and the Molecular Weight and the Viscosity of the Products 161

Kakuji GOTO und **Hideo SHISHIDO**: Abbau von Dibenzoyl-sinomenolchinon zu 2,3,3′,4′-Tetramethoxy-diphenyl 170

Kokiti GOTO und **Toshizo TITANI**: Untersuchungen der chemischen Eigenschaften der Kohlenhydrate mit Hilfe des schweren Sauerstoffs. I. Austauschreaktion der Sauerstoffatome zwischen einigen Hexosen und Wasser (Auszug) 172

Shojiro UENO: Über 2.6-Dichlor-diphenylendioxyd 177

Yoshiyuki URUSHIBARA and **Takesi NITTA**: *α*-Oestradiol Dimethyl Ether, 17-Monomethyl Ether, and Related Compounds 179

Yoshiyuki URUSHIBARA: The Configurations of Cholesterol Oxides, Δ^4-Cholestenediols-(3,6), and Cholestanediols-(3,6) 182

No. 7. JULY.

Seiichi YAMADA: Researches on Camphor, Borneol and Their Allied Substances 187

Koshiro ISHIMURA: On the Catalytic Action of Japanese Acid Earth. XI. The Isomerisation of Aldehydes to Ketones and the Explanation of the Migration of the Radicals from the Standpoint of the Electronic Theory 196

Osamu SIMAMURA: The Synthesis of 1,4-Diphenyl-1,4-di-*p*-tolylbutatriene and 1,4-Diphenyl-1,4-di-*p*-chlorophenylbutatriene . . 210

Senzo HAMAI: Physico-Chemical Investigations on Catalytic Mechanism. II. Note on The Fischer-Tropsch Synthesis of Hydrocarbons with Special Reference to its Reaction Mechanism . . . 213

Kiyoshi MORIKAWA, Toraki KIMOTO, and Ryonosuke ABE: Direct Determination of Oxygen in the Organic Compounds by the Hydrogenation. III. Reduction Mechanism on the Ni-Thoria Catalyst 229

Kozo HIROTA: Thermal Diffusion of Binary Salt Solutions. A Note on the Paper of Gillespie and Breck 232

Kazuo KURODA: Analyse des Mineralwassers von Kinkei in der Provinz Totigi 234

No. 8. AUGUST.

Seiichi YAMADA: Researches on Camphor, Borneol and Their Allied Substances. (*Continued*) 239

Koshiro ISHIMURA: On the Catalytic Action of Japanese Acid Earth. XI. The Isomerisation of Aldehydes to Ketones and the Explanation of the Migration of the Radicals from the Standpoint of the Electronic Theory (*Continued*) 252

Toyoziro OGURA: Studien über Oxydationszersetzung des Methans. 262

Kozo HIROTA: Researches on the Chemical Reaction by Use of the Thermal Diffusion Apparatus of Clusius and Dickel. I. Thermal Polymerisation of Methane 274

Ryoji NEGISHI and Chiharu ISOBE: The Separation of Iso- and Normal Butyl Alcohols from Hydrocarbons by Azeotropic Distillation 278

Masami SIMOKORIYAMA: Über die Bildung der partiellen Acetate von Flavonen, Flavanonen, Anthrachinonen und dergleichen Verbindungen 284

Taichi HARADA: A Note to the Paper "On the Metallo-organic Compounds. X. Electroisomerism in the Triethyltin Group" . 292

No. 9. SEPTEMBER.

Koshiro ISHIMURA: On the Catalytic Action of Japanese Acid Earth. XI. The Isomerisation of Aldehydes to Ketones and the Explanation of the Migration of the Radicals from the Standpoint of the Electronic Theory (*Continued and concluded*) 293

Toyoziro OGURA: Studien über Oxydationszersetzung des Methans (*Fortsetzung*) 303

Toraki KIMOTO, Kiyoshi MORIKAWA and Ryonosuke ABE: Direct Determination of Oxygen in the Organic Compounds by the Hydrogenation. IV. Analyses of the Sulphur-Containing Compounds, Coals 324

Haruo TATSUTA: Asymmetrische Synthese. II. Asymmetrische Synthese von Oxy-flavanon aus Oxy-chalkon 327

Kakuji GOTO, Reikichi INABA und Hideo SHISHIDO: Synthese von rac. 3,6-Dimethoxy-5-äthoxy-*N*-äthyl-nor-aporphin 329

Shigeto YAMAGUCHI: An Electron Diffraction Study of the Protective Coating on Metals and Alloys (*Continued*): the Acid-Proof Surface of Ferrosilicon (Duriron) 332

Seiichi YAMADA: Research on Camphor, Borneol and Their Allied Substances (*Continued and Concluded*) 336

No. 10. OCTOBER.

Koshiro ISHIMURA: On the Catalytic Action of Japanese Acid Earth. XII. The Relation between the Catalytic Activity and Adsorption. II. The Adsorption Isotherms of Water and Acetonitrile for the Earth 349

Toyoziro OGURA: Studien über Oxydationszersetzung des Methans (*Fortsetzung und Schluss*) 356

Yozo NAKAMURA: Asymmetrische Synthese. III. Versuch zur Darstellung eines optisch aktiven Amins durch die Reduktion des Ketoxims beim Vorhandensein von optisch aktiver Säure . . . 367

Nobukazu OKAZAKI und Masao KOIZUMI: Austauschreaktion der Wasserstoffatome im festen Anilinchlorhydrat und seinen Derivaten. I. Anilinchlorhydrat (Auszug) 371

Osamu KIMURA: Influence of Sorption on the Electric Conductivity of Pulverized Metals. I 378

Fumikazu KAWAMURA: Studies on Styrene Ozonide 382

No. 11. NOVEMBER.

Koshiro ISHIMURA: On the Catalytic Action of Japanese Acid Earth. XIII. The Catalytic Action on Some Alkyl Aryl Acetaldehydes . 397

Kokiti GOTO und Toshizo TITANI: Untersuchungen der chemischen Eigenschaften der Kohlenhydrate mit Hilfe des schweren Sauerstoffs. II. Austauschreaktion und Mutarotation der Glucose und Fructose (Auszug) 403

Taichiro OYAMADA: Studies on the Derivatives of 3-Hydroxyflavanone (Dihydroflavonol). I. On the Action of Lead Tetraacetate on Flavanone and 4′-Methoxyflavanone 408

Masataro YAMASHITA and Tokiyoshi MATSUMURA: Synthesis of *p*-Isopropyl-*α*-methylhydrocinnamic Aldehyde 413

Jisaku KURODA und Nobukazu OKAZAKI: Austauschreaktion der Wasserstoffatome im festen Anilinchlorhydrat und seine Derivate. II. *p*-Toluidinchlorhydrat (Auszug) 417

Satoru KUWADA und Yosio SASAGAWA: Über die Reaktion von Grigniardschen Reagenz auf *α*-Benzoyloxybutyronitril 423

Yasuo TANAKA: Studies on the Reactions between Oxides in Solid State at Higher Temperatures. I. The Reaction between Magnesium Oxide and Titanium Oxide 428

No. 12. DECEMBER.

Koshiro ISHIMURA: A Simple Procedure for Decolourisation of Organic Compounds 443

Koshiro ISHIMURA: Some Methods of Analysis of Commercial Methanol 444

Yasuo TANAKA: Studies on the Reactions between Oxides in Solid State at Higher Temperatures. II. The Reaction between Calcium Oxide and Titanium Oxide and the Photo-sensitivity of Calcium Titanate 455

Sigeo NAKATA und Noriyoshi MORITA: Katalytische Oxydation des Schwefeldioxyds mittels schweren Sauerstoffs an der Oberfläche des Platinschwamms (Auszug) 463

Keniti HIGASI: Lösungsmitteleffekt des Dipolmomentes disubstituierter Benzole 472

Kozo HIROTA: Studies on the Thermal Diffusion of Solutions. I. Thermal Diffusion Coefficient of Some Inorganic Solutions . . 475
